

LUPIT POLE PRO / INOX STAINLESS STEEL

LUPIT POLE PRO is designed for professional use in pole dance studios, fitness centres and other places where quick (10 seconds) installation/removal is necessary.

This pole is customized for any height up to 14ft 9.1in. It is **tailored made** for the ceiling height to be made from one long pole to achieve smooth surface from the top to the bottom. No joints or anything to feel on the pole surface.

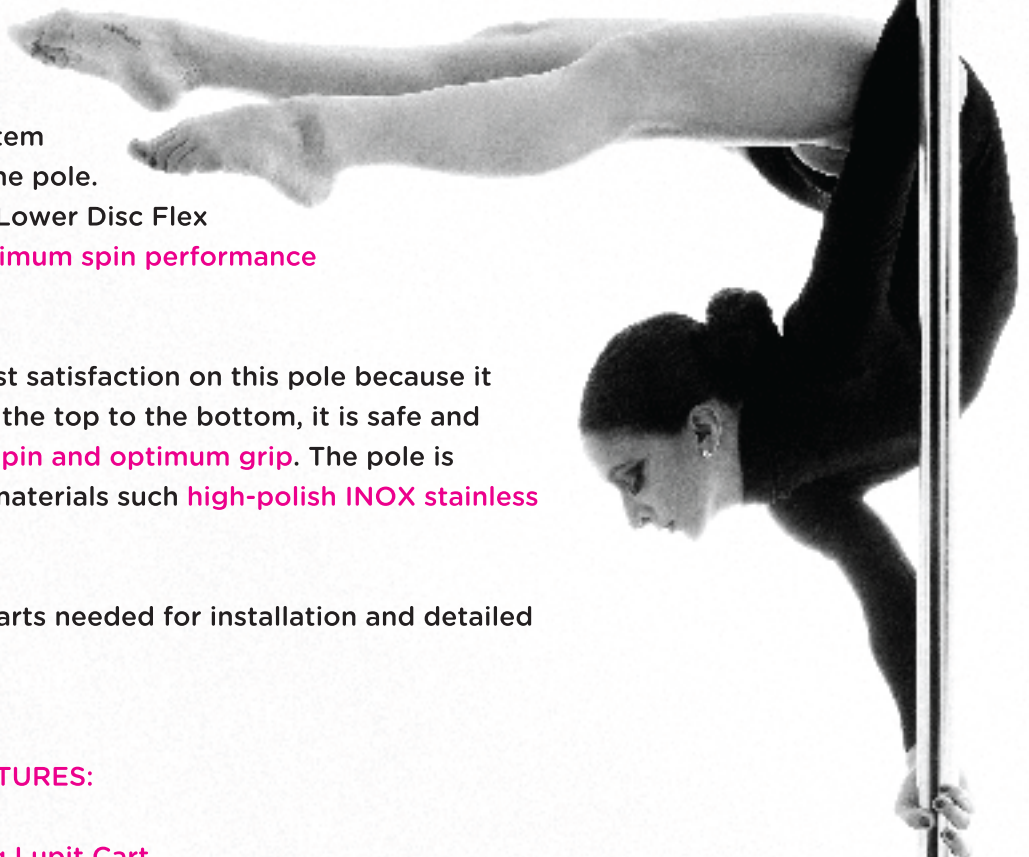

The pole has Lupit's unique AVFAS (Automatic Vertical Force Adjusting System) which has two functions: Firstly it enables **quick installation** and, secondly, it automatically equally distributes vertical force to upper and lower bearing system during exercising on the pole. Together with unique Lower Disc Flex System it **ensures maximum spin performance and safety**.

Dancer gets the highest satisfaction on this pole because it is totally smooth from the top to the bottom, it is safe and reliable, has **amazing spin and optimum grip**. The pole is made of high-quality materials such **high-polish INOX stainless steel - allergies free**.

Package includes all parts needed for installation and detailed instructions.
